

ULTRASONIC COMPACTING MACHINE KB 1

- The ultrasonic end compactor KB 1 was developed to compact copper strands.
- The tool has 8 positions which can be defined for different can be defined.
- The cross-section range that can be processed is 0.3 and 4 mm².

WELDING MACHINE: KB 1

Ultrasonic generator: 20 kHz 10000 W

TECHNICAL DATA

Ultrasonic generator: Cobra 20kHz 1000W

Width	125 mm
Height	280 mm
Depth	415 mm
Weight	8,0kg
Input voltage	190 – 265V AC 50/60 Hz (single-phase, with protective earth)
Fuse	16 A
Output power	max. 1000 W
Compressed air	Min. 6 bar, dry, 20 µ filtered
Operating frequency	20 kHz

Welding machine: KB 1

Width	115 mm
Height	120 mm
Depth	415 mm
Weight	6,9 kg
Frequency	20 kHz

Connecting cable

Length	3 m
Foot switch	1,5 kg

*Special lengths on request
